The provisions relating to licensing procedure which were till the last period published in Section I of the Red Book, have been incorporated in the Import Trade Control Hand Book of Rules and Procedure, 1964. The instructions contained in the said Hand Book, will be applicable, subject to the provisions contained in the succeeding paragraphs.

(193)

2 **Forms of applications.**—Specimens of the application forms are reproduced in Appendix 6

3. **Income-tax Verification.**—Importers whose Income-tax Verification Registration/Exemption Number expires on 31st March, 1964 or who have no valid I.V.C. Registration/Exemption Number for the year April 1964—March 1965, are advised to take steps immediately to obtain the required number.

4. **Last date for submission of applications.**—Unless otherwise stated in this Section of the Red Book or in the remarks column in Section II, applicants should submit their applications complete in all respects on or before the dates specified below against each category of importers:

Established Importers :—

- (i) Established Importers applications for drugs and medicines (S. Nos. 87, 109/IV), Motor Vehicle Parts (S. Nos. 293—295 and 297/IV) and Chemicals (S. Nos. 22—31/V)—31st July, 1964.
- (ii) Established Importers applications for all other items.—30th June, 1964.

Actual Users:

- (i) Scheduled industries borne on the registers of the Directorate General of Technical Development—31st May, 1964.
- (ii) Other actual users.—15th August, 1964.

All Others:—30th June, 1964.

N.B.—In the case of industries in the small scale sector, applications for capital equipment including machine tools will be accepted as and when received even after the expiry of the prescribed last date, i.e., 15th August, 1964.

In respect of items for which applications on *ad-hoc* basis have been invited, the last dates prescribed for established importers/actual users will be applicable according to the category of the applicant. In cases where parties other than established importers/actual users apply, the last date fixed for “others” will be applicable.

5. **Open General Licences.**—Open General Licence No. IV published with the late Ministry of Commerce and Industry Order No. 2/61, dated the 28th February, 1961 as amended *vide* late Ministry of Commerce and Industry Order No. 1/62, dated the 2nd January, 1962 which permits the imports of (i) free gifts of books upto the value

of Rs. 250 in favour of individuals or institutions; (ii) Blue prints and Drawings (including Micro-films which are photographic reductions thereof) relating to Machinery and Plant sites, works and buildings of no commercial value and supplied free of charge; (iii) *bona fide* samples supplied free of charge in one consignment upto value limit of Rs. 250 (c.i.f.); and (iv) of replacement consignments, continues to be in force. The Open General Licence has been reproduced in Appendix 13.

6. Annual Licensing.—This Red Book contains policy for the year April 1964—March 1965. All applicants whether Established Importers, Actual Users or others should submit their applications for import licences on an annual basis to cover their yearly entitlement/requirement. The quota percentages or quota entitlements for specific items given in the Policy Statement in Section II pertain to half yearly quota/entitlement. In the case of Established Importers, the applications should be made for double of the half yearly entitlement calculated in terms of the provisions contained in para. 45 of Chapter III of the Hand Book of Rules and Procedure, 1964 after allowing the benefits of minimum value and enhancement of value wherever permissible. Similarly, the actual users and others should submit applications for their annual requirements for the year April 1964—March 1965.

It should be noted that the applications on annual basis should be made once only within the last dates prescribed in this Red Book. Only one application for an annual licence will be entertained.

The foreign exchange position continues to be difficult and due to non-availability of the full yearly quota of foreign exchange, it would not be possible to issue licences to all applicants for their full entitlement. Annual licences, where granted, will be subject to the following conditions :—

- (1) During the first six months of the period of validity of the licence, the licensee shall be entitled to order shipment of goods to the extent of 50 per cent. only of the value of the licence, and remittance to the extent of 50 per cent. only will be allowed to him during the said period. The licensee shall not enter into any irrevocable commitment in respect of any part of the balance of 50 per cent. of the value of the licence during the said period.
- (2) The balance 50 per cent. of the value of the licence can be utilised only after the first six months of the validity

period of the licence, after endorsement by the licensing authority and will be subject to such change in value as may be decided upon by Government.

- (3) In the case of items, the import of which is restricted upto a certain percentage of the face value of the licence, it shall not be open to the licensee to import such restricted items by applying the face value restriction on the full value of the licence while utilising only 50 per cent. of the value of the licence in terms of condition No. (1) above.

In other cases, licences covering first half yearly entitlement will be issued as the first instalment and supplementary licences covering next half yearly entitlement will be issued subject to such cuts as may be decided upon by Government in the next half year.

Annual licences will be issued with the initial validity period applicable to six monthly licences as specified in para. 18 of this section and within this initial validity period the first 50 per cent of the value of the licence should be utilised.

In the next half year when the annual licence is presented to the licensing authority for endorsement for validation of the second half of the licence subject to such change in value as may be decided upon, the validity period of the licence will be extended by another six months for utilisation of the second half of the licence.

A separate announcement will be made to indicate the scope of annual licensing.

7. Annual licences of small value.—With a view to enable the actual users both in the scheduled and non-scheduled sectors to utilise the small value annual licences upto Rs. 5,000 in one lot immediately they are issued, such small value annual licences to actual users will be issued by the licensing authorities without imposition of the prescribed annual licensing conditions as indicated in para 6 above.

8. Basic period.—The basic period for the purpose of calculating the quota of Established Importers is from 1st April, 1951 to 31st March, 1952. In the case of Art Silk Yarn, the basic period will continue to be from 1st April 1945 to 31st March 1951. The basic period has been extended to 1952-53, 1953-54, 1954-55, 1955-56, 1956-57, 1957-58, 1958-59, 1959-60, 1960-61 and 1962-63 in the case of a large number of items. The list of items for which the basic period has been extended will be found in Appendix 9. In respect of items

which were covered by Open General Licences Nos. XLIV and XLV, dated 29th September, 1956 and which have been brought to quota licensing, the basic period will be any financial year from 1952-53 to 1955-56 only provided that;

- (i) in the case of any such items included in lists E, F, G, H, I and J of Appendix 9, the basic period will be from 1952-53 to 1956-57, 1952-53 to 1957-58, 1952-53 to 1958-59, 1952-53 to 1959-60, 1952-53 to 1960-61 and 1952-53 to 1962-63 respectively;
- (ii) in respect of composite Serial Nos./Sub-Nos. consisting of a number of items where certain specific item(s) was/were included in the said OGLS the basic period will be from 1951-52 to 1956-57.

9. Last date for submission of applications for fixation of quota.—Applications for establishment/refixation of quotas should be made so as to be received not later than 15th June, 1964. Applications received thereafter will be entertained upto 15th September, 1964 subject to the condition that quota certificates granted on the basis of such late applications will not entitle the applicants to claim licences for April 1964—March 1965.

10. Actual Users.—The detailed policy for licensing of individual items to actual users is given in Appendix 4 to this book. An attempt has also been made to give the policy for licensing of raw materials/components to certain specified industries in the annexure to Appendix 4.

11. Validity of Essentiality Certificates.—As stated in para 6 above, the actual users will be required to submit their applications for their yearly requirements for the period from April 1964—March 1965. The State Directors of Industries should, therefore, issue Essentiality Certificates in respect of requirements of actual users for the period from 1st April, 1964 to 31st March, 1965. The Essentiality Certificates issued in the previous year will no longer be valid.

In cases where the small scale units require more than one copy of the Essentiality Certificate for submission of applications to the different licensing authorities, the State Directors of Industries may grant additional copies of certificates to the extent required.

12. Last date for Receipt of Applications for Essentiality Certificates from Certifying Authorities by Scheduled Industries not borne on the list of the Directorate General of Technical Development and

Non-Scheduled Industries including Small Scale Industries.—Except in the case of applications for Capital equipment including Machine Tools from industries in the small scale sector, Actual Users are required to submit their applications complete in all respects on or before the 15th August, 1964. It is noticed that the Actual Users do not submit their applications for essentiality certificates to the certifying authorities well in advance of the last date with the result that the issue of essentiality certificates is delayed. It has, therefore, been decided that except in the case of applications for grant of essentiality certificates for capital equipment including machine tools from industries in the small scale sector which will be entertained even after the last dates prescribed hereunder, all Actual Users should submit their applications for the grant of essentiality certificates to the certifying authorities not later than the 31st May, 1964. Applications for grant of essentiality certificates submitted thereafter will not qualify for the grant of Actual User licences. The Actual Users should try to secure the essentiality certificates from the certifying authority and submit the applications for import licences well in advance of the last date. In cases where the essentiality certificate has been applied for on or before the 31st May, 1964, but has not been granted, the Actual Users should submit their applications with a copy of the application made for the grant of essentiality certificate to the Licensing Authority within the prescribed last date, i.e., 15th August, 1964. The essentiality certificate should be submitted to the Licensing Authority when received. No application submitted after the last date will be entertained.

13. Grant of Actual Users Licences to Government Departments Projects.—Grant of A.U. licences to Central and State Government Departments, Development Projects and Central Government controlled Joint Stock Companies will be considered only if the applications are sponsored by the appropriate Ministry of the Government of India.

14. Grant of Emergency Licences for Spare Parts.—Provisions for licensing of spares made in Public Notice No. 13-ITC(PN)/57, dated 21st February, 1957 reproduced in Appendix 43 will continue to be operative during this period.

15. Export Promotion.—As a measure of export promotion, exporters of certain goods (whether manufacturer-exporters or merchant-exporters) are given special import facilities under the

Export Promotion Scheme in force. The details of the procedures in this regard are set out in Appendix 23.

16. **D.G.S.&D./Railway Contracts.**—The procedure for dealing with the applications made by firms to cover goods in respect of which a contract has been placed with them by the D.G.S.&D. and State Railways, has been laid down in Chapter VI of the Hand Book of Rules & Procedure, 1964. In cases where the stores desired to be imported under the procedure cover a long list of items, the applicants should furnish 6 copies of the list of goods showing the value, quantity and I.T.C. classification of each item.

17. **Machine Tools.**—The licensing policy for the import of Machine Tools has been set out in Appendix 11.

18. **Period of validity of licences.**—The period of validity of import licences in the case of each item is given in column 5 of the Policy Statement in Section II. The validity period, so indicated, pertains to licences granted on six-monthly basis. For annual licences, the period of validity as stated in para. 6 above will be allowed.

19. **Issue of import licences in respect of the requirements of Universities, Educational Institutions, Research Organisations, Technical/Technological Institutions and Hospitals.**—(1) The procedure for the submission of applications for import licences by Universities, Educational Institutions, Research Organisations, Technical/Technological Institutions and Hospitals, is laid down in Chapter VI of the Hand Book of Rules and Procedure, 1964. In this connection, attention is also invited to the provisions in para 5 of Appendix 19 of this book.

(2) As stated in para 6 above on annual licensing, all applications should be made on yearly basis for the year April 1964—March 1965. All applications should reach the Chief Controller of Imports and Exports, New Delhi, or the sponsoring authorities concerned, as the case may be, on or before the 31st July, 1964. Applications received after the last date, are liable to be rejected. It may be added that if the sponsoring authority considers it necessary, it may prescribe a separate last date for submission of the applications to it.

20. **Import of Machinery Items.**—Importers of machinery items are advised to satisfy themselves that the machinery sought to be imported satisfy conditions laid down in the Factories Act and Rules framed thereunder or with similar rules in force in the country of origin of the machinery.

21. Import Policy for Goa, Daman and Diu.—The provisions contained in this book will apply to importers in Goa, Daman and Diu subject to such changes as may be separately announced.

22. Grant of licences to wholesale/Central Stores.—The scheme for licensing of specific goods to Consumers' Co-operative Societies which was in force upto April 1963—March 1964 licensing period has been withdrawn. With effect from the current period imports of a few selected consumer goods will be allowed, within a limited ceiling, through wholesale/central stores recognised by the Ministry of Community Development and Co-operation for distribution by such wholesale/central stores to consumers' co-operative stores.

SMALL VALUE LICENCES—ENHANCEMENT OF

It is well known that the system of quota licences freezes the pattern of import trade. The rigid application of this system has, by circumscribing the opportunities for the exercise of commercial skill and enterprise, operated as a stumbling block for attempts on the part of small importers to improve their business. An attempt has been made to provide an opportunity to small licence holders to expand their business to a limited extent in the items mentioned in the first two columns of the table below. The words "small value licences will be enhanced" or "licences valued upto a certain limit will be doubled" have been inserted against the items concerned in the remarks column of the Policy Statement in Section II of the Red Book.

2. In the case of items where quota licences upto a certain value limit will be doubled, the Established Importers whose entitlement works out to less than twice the figure quoted in column 3, will be eligible to ask for the value of their licence to be suitably enhanced so as to provide adequately for marginal adjustments.

APPENDIX 11

(SECTION II—PART VI)

MACHINE TOOLS—LICENSING POLICY FOR APRIL 1964—MARCH 1965

For purposes of licensing, Machine Tools falling under Part VI of the Import Trade Control Schedule (*vide* Schedule A attached) are divided into two main categories, *viz.*—

- (a) those falling within the definition of Capital Goods, and
- (b) others.

2. The rules and procedure in the case of Machine Tools falling in the category of Capital Goods have been set out in Chapter II of Plant and Machinery Hand Book. The relevant para defining Capital Goods Scheme is reproduced below:

“Whilst the Scheme will apply to all the goods falling under Part III mentioned in paragraph 1 above, it will apply in the case of goods falling under Parts I, II, V and VI only in respect of—

- (i) Applications of an aggregate value of Rs. 1,00,000 (f.o.b.) or over for any single new or expansion project with any project subsidiary thereto, but will not apply in the case of replacement goods.
- (ii) Applications by holders of ‘C.G.’ or ‘CGPW’ licences for the importation of additional plant and machinery irrespective of its value, when required for the project for which the original licences were issued”.

However, the applicants under the C.G. Scheme should segregate their requirements under two separate applications one for Machine Tools and other for Plant and Machinery excluding Machine Tools. The applications for Machine Tools should be accompanied by a statement as per annexure to this Appendix. The import policy for machine tools which does not come under the Capital Goods Scheme is set out in the succeeding paragraphs. These licences will be issued by the Development Officer (Tools), Directorate General of Technical Development, Udyog Bhavan, New Delhi.

3. Machine tools other than those mentioned in Schedule ‘B’ to this appendix will be licensed to Established Importers on the basis of a quota of 10% of half of best year’s imports. The quota licences for Machine tools will be granted for imports from the USA under US-Aid during April, 1964—March, 1965. Licences granted to the Established Importers during the current year would be valid for import of complete machine tools only to the extent of 92 per cent

APPENDIX 11—*contd.*

of their face value. The balance 8 per cent could only be utilised for imports of such spares as may be specifically authorised by the Development Officer (Tools). It is expected that importers will stock sufficient spares for the machine tools to keep the machine supplied by them running. The procedure for import of machine tools against licences issued under U.S. Aid will be announced separately.

4. In addition to the provision for grant of licences for imports of Machine tools from the USA under US-Aid in para 3 above, quota licences will also be issued to established importers for import of spare parts of permissible Machine tools as specified in Schedule A to this Appendix from General Area on a quota of $2\frac{1}{2}\%$ of half of their best year's imports of complete Machine tools.

5. Applications from established importers for licences for import of machine tools and spare parts of permissible Machine tools should be submitted separately in quadruplicate on the proper form shown in Appendix 6 along with a Treasury Receipt of the requisite amount specified elsewhere.

6. Grant of licences for spares of such machine tools as are banned will be at the discretion of the Development Officer (Tools). Imports of second-hand machine tools will not be allowed for stock and sale.

7. Applications from actual users for import of second-hand machine tools, must be accompanied by a Chartered Engineer's certificate bringing out the following information:—

- (i) Full specification of the second-hand machine tool; Maker's name for the machine and price of the machine or similar machine if bought new.
- (ii) Year of make.
- (iii) Name of the firm which carried out reconditioning/repairs, if any, and nature of repairs carried out.
- (iv) Present condition and expected life subject to normal care and maintenance and use within its designed capacity.
- (v) Professional standing of the Chartered Engineer who should normally be an independent party having nothing to do with the firm selling the second-hand machine.
- (vi) Photograph of the machine if available.

Request for issuing of import licences for second-hand machine tools, subject to the condition that the requisite Chartered Engineer's certificate would be produced to the satisfaction of Development Officer (Tools) before shipment is effected, would be considered on merits.

APPENDIX 11—*contd.*

8. Actual Users applications which will be on form 'G' will be considered on the basis of their requirements. They should furnish full justification with particular reference to the end use of machine tools applied for. Essentiality certificates should be furnished either from the State Director of Industries or from such other authorities mentioned in para. 72 of Chapter IV of the Hand Book of Rules and Procedure, 1964. They should submit with their application a separate statement mentioning import licences (giving number and date with brief description of machines and value) issued to them after 1st October, 1961.

It will be necessary for the applicants to indicate which particular country they propose to obtain the equipment from. As the funds available for such licensing from different countries vary and cannot always be used for import from other countries, importers should when specifying the source of supply also indicate alternative sources from which the equipment could be obtained, if possible in order of preference. In case the country of supply is not indicated, there will be delay in the disposal of the case. To enable the licensing authority to issue the licences from wherever funds are available from the options indicated by the applicant, full details regarding columns 6, 7, 8, 14, 15 and 17 of the application form 'G' should be furnished in separate enclosures for each of the alternative sources of supply.

9. Established importers can also make applications on behalf of Actual Users for import of Machine Tools required by them. Such applications will be considered provided the essentiality is certified by the appropriate recommending authority. The licences will be granted in the name of the Actual User with a letter of authority in favour of the importing house.

10. All applications whether by established importers or by actual users should contain as far as possible full descriptive details of the machine tools desired to be imported together with c.i.f. value of each item separately. Descriptive catalogues if available should be sent along with the application.

11. Licences will be granted to meet the specific orders placed by the Director-General of Supplies and Disposals and other Government Undertakings

12. The validity of licences will, in the case of machine tools required to fulfil D.G.S. & D. and Railway contracts, be in accordance with the delivery period mentioned in the contract. In the case of US-Aid licences validity will be governed by the terms and conditions of loan. In other cases, licences will have a validity of twelve months from the date of issue.

13. The limiting factor for licences for machine tools will be both quantity and value. Even where the aggregate value of licence remains the same but the value of the individual machine differs by more than the normally permitted variation necessary amendments have to be obtained from the Licensing Authority before shipment.

APPENDIX 11—*contd.*

14. All applications for machine tools which do not come under the Capital Goods Scheme should be made to the Development Officer (Tools), Directorate General of Technical Development, Udyog Bhavan, New Delhi, together with the relevant document in the prescribed form 'G' in quadruplicate, as shown in Appendix 6. Actual Users should submit their applications in quintuplicate; one copy to be retained by the sponsoring authority and the remaining four copies forwarded to Development Officer (Tools).

15. Applications for import of spares for Machine Tools will also be entertained by the Development Officer (Tools) from manufacturers' sole selling agents, other than the quota holders of Machine Tools, for servicing Machine Tools already imported. This will be based on the past utilisation of such import licences received by them only in case such newcomers are ineligible to establish their regular quota as per I.T.C. Policy.

Intending newcomer sole selling agents may submit their applications for spares for Machine Tools in the prescribed form and manner to the Development Officer (Tools) as early as possible but not later than the 1st June, 1964. The following particulars should also be furnished with the applications:

- (i) Stocks of spare parts in hand on the date of application;
- (ii) Licences in hand on the date of application;
- (iii) Expected arrivals against orders already placed;
- (iv) Detailed justification for grant of licences; and
- (v) Average imports of Machine tools/spares against licences granted during (a) October 1959—March, 1960, (b) April—September, 1960, (c) October, 1960—March, 1961, (d) April—September, 1961, (e) October, 1961—March, 1962, (f) April—September, 1962 and (g) October, 1962—March, 1963.

Documentary evidence should be furnished.

16. The licensing authority will at his discretion discontinue issuing licences for such types of machine tools as have been licensed in sufficient quantity during the current licensing period.

17. The last date for submission of applications from Actual Users will be the 15th August, 1964. The last date for submission of applications from Established Importers will be the 30th June, 1964. Established importers may, if they like, make applications for endorsing further list of spares within their entitlement upto 31st December, 1964. Not more than four such requests will be entertained.

N. B.—(i) The dimensions shown against All Adapter Ball Bearings as shown in Appendix 14(2) and (3) are the internal bore of the sleeves fitted to the bearing and not the internal bore of the bearing without the sleeves. As such, all Adapter Ball Bearings as shown in Appendix 14 (2) and (3) can only be imported within the restricted imports irrespective of the fact whether they are imported with or without the sleeves. The face value of restriction for any single type of Adapter Bearings will henceforward deem to apply jointly for both inch sizes and millimeter sizes in case of Adapter Bearings. In other words ceiling under the face value for each size will be a joint ceiling for inch as well as the corresponding millimeter size. This will also apply to non-restricted types of Adapter Ball Bearings.

(ii) In addition to the two makes given in the appendices, *viz.*, Hoffmann and SKF ball bearings of other makes falling within the specific sizes and specific types mentioned in the appendices will also be treated as 'restricted' types and will be licensed within the restricted imports.

(iii) Catalogue references quoted in the appendix are purely for purposes of identification and no representation from any manufacturer Indian or Foreign for inclusion of this brand will be entertained.

APPENDIX 19

(Section II—S. Nos. 87, 109/IV)

**DRUGS, MEDICINES AND PHARMACEUTICAL CHEMICALS—LICENSING POLICY
FOR APRIL 1964—MARCH 1965.**

Some of the drugs and medicines are given in Lists I, II and III. Licences issued for drugs and medicines will not be valid for import of items mentioned in List II, but past import of items shown in List II, if imported within the basic period, will count for computation of consolidated quota for drugs and medicines. List III contains items of drugs and medicines for which licences will be granted separately for each item on a quota based on imports of individual items. The consolidated quota certificates issued to established importers for general and soft areas respectively will not be disturbed though a few items have been given separate quotas based on the import of those items only and included in List III. However, in cases where quotas have been established only on the basis of past imports of a single item under general drugs and medicines, which is subsequently included in List III, the quota certificates so issued will have to be surrendered, if the importers desire to get their quota re-established under List III on the basis of the past imports of that item.

2. Licences will be granted on a quota of 10 per cent. of half of the best year's imports of Drugs and Medicines falling under this S. No. excluding items 1 to 42 in List III and S. No. 31 (b)/V. These licences will be valid only for import of items as detailed in List I.

3. Quota licences granted under this procedure will not be valid for the import of drugs and medicines shown in list II & III.

4. Quota licences granted for items specified in List III of this Appendix will also be valid for import of drugs and medicines included in List I (Essential List) of this Appendix. However, quota licences granted for 'Crude drugs for Ayurvedic and Unani medicines' and 'Homoeopathic medicines' will not be so valid.

5. A.U. applications from Hospitals, Clinical, Pathological and Analytical laboratories and other recognised institutions for import of essential equipments and accessories and special drugs and chemicals will be considered by C.C.I. in consultation with the D.G.H.S., New Delhi, against a ceiling. Applications should be submitted to the C.C.I. & E. through the State Health Departments who will certify the essentiality of the stores proposed to be imported.

6. Applications for additional licences from established importers for import of surgical ligatures and sutures may be considered by the Chief Controller of Imports, New Delhi in consultation with the

APPENDIX 19—*contd.*

Directorate General of Health Services, New Delhi against the ceiling. Applicants should be holders of import licences under the Drugs Act and should indicate in their applications particulars of their Drug Import Licence Number, the value of the quota licences granted to them during the previous two periods, the extent to which the licences have been utilised and the c.i.f. prices of the items proposed to be imported.

7. *Import of free samples of drugs and medicines*:—In order to minimise delay and inconvenience to *bonafide* sole representatives of manufacturers abroad in importing consignments of free samples of drugs and medicines, it has been decided to authorise the licensing authorities at the ports to grant Customs Clearance Permits to cover the import of free samples of drugs and medicines covered by List I of this Appendix subject to the following conditions:—

- (1) No remittance of foreign exchange is involved;
- (2) The c.i.f. value of the consignment is reasonably small and does not in any case exceed Rs. 5,000 (Rupees five thousand);
- (3) The samples are imported in packings which are distinctly different from regular trade packings; and
- (4) Each packing is clearly marked "Physician's samples—Not to be sold".

Applications should be made in the proper form and manner to the licensing authorities concerned. Only one Custom Clearance Permit will be issued to a firm wherever necessary and for this purpose only the Head Office of the firm should apply.

8. Customs Clearance Permits for new drugs will also be granted by C.C.I., New Delhi. Such applications should be made to C.C.I., New Delhi through the Drugs Controller, India

9. With a view to ensure that the pharmaceutical industry is able to secure the essential basic drugs required by them. Actual user applications from such of the units which are not borne on the books of the Directorate General of Technical Development will be considered by the port licensing authorities. Such manufacturing units should submit their applications for import of these raw materials in the usual form and manner duly supported by the necessary essentiality certificates from the State Drugs Control Authorities as per list given in Annexure IV. The applicants should give full justification for the import of the items of raw materials supplied for. In addition, they should also furnish information as required in Public Notice No. 70-ITC(PN)/57, dated 26th October, 1957 reproduced in Annexure V to this Appendix. The additional information required in terms of para 2(iv) of this Public Notice should, however, be furnished in the revised proforma given in Annexure III to this Appendix. Applications complete in all respects should be made so as to reach the Port licensing authority concerned by the 15th August 1964.)

APPENDIX 19—*contd.*

10. In order that the pharmaceutical industry is able to secure special apparatus, instruments and equipment required for the manufacture of drugs and medicines and also chemicals and reagents required for testing the raw materials and finished products, actual users' applications from such of the units which are not borne on the books of the Directorate General of Technical Development will be considered by the Port Licensing Authorities on the basis of essentiality certificate granted by the State Drugs Control Authorities. Such manufacturing units should submit applications for import of these special apparatus, reagents, chemicals, etc., in the usual form supported by the necessary essentiality certificates and giving full justification for import of these special apparatus, etc. applied for.

11. Quota licences granted for List I and List III items will not be valid for imports of reagents labelled as specifically conforming to A.R. and G.R. qualities excepting Diagnostic Agents which are specified in Annexure VI to Appendix 19.

EXPORT PROMOTION SCHEME

1. General

1.1. As a measure of export promotion, exporters of finished goods (whether manufacturer-exporters or merchant-exporters) are given certain import facilities for the import of raw materials, components, consumable stores, and/or machinery/spare parts under export promotion schemes in force. These schemes are administered by the Export Promotion Councils or Commodity Boards or the Export Promotion Officers mentioned in para. 2.1 below. A list of the concerned Export Promotion Councils/Commodity Boards is given in Annexure I. Exporters may contact the respective Export Promotion Councils/Commodity Boards or the Import and Export Trade Control Authorities or the Export Promotion Officers mentioned in para. 2.1 below for obtaining details of the relevant export promotion schemes such as the export products covered by the schemes, the items allowed to be imported and the extent to which, and the conditions subject to which, such import licences are granted under the schemes.

1.2. This Appendix enumerates the general rules governing the export promotion schemes relating to the various export products and its provisions are applicable to all such schemes in so far as they are not inconsistent with the express provisions of any export promotion scheme in relation to any particular commodity.

2. Registration of exporters

2.1. Exporters desirous of availing themselves of obtaining import licences under the export promotion schemes are required to register themselves with the appropriate Registering Authority. The Export Promotion Councils/Commodity Boards are the Registering Authorities in respect of the commodities dealt with by them. In respect of some other export products, the Registering Authorities are the officers mentioned below. In case of any doubt, exporters may consult the officers mentioned below or the Import or Export Trade Control Authorities as to the appropriate Registering Authority for any particular export product under the Export Promotion Scheme.

2.3. In the case of a firm having any branches, the application for registration shall be made only by the Head Office and, where the application has to be made to the Registering Authority mentioned in para. 2.1, it should be made to the authority within whose jurisdiction the head office of the firm is located.

2.4. All exporters with past performance, good record and experience are eligible for registration. An applicant with no previous experience of export in a particular line may also be registered if the Registering Authority is satisfied about the applicant's general background of trading and industrial experience or of export of other products. Registration is ordinarily granted on the Registering Authority being satisfied as stated above.

2.5. The Registering Authority shall, if satisfied about the qualifications of any exporter, issue a certificate of registration to him. The Registering Authority shall also forward copies of the registration certificate to the other Registering Authorities in whose jurisdiction the branches of the firm are situated.

2.6. Once an exporter has been registered, the registration shall remain in force unless:

- (a) the person registered ceases to exist, or
- (b) his name is de-registered for any other valid reason.

APPENDIX 23—contd.

3. *De-registration*

3.1. If no application for an import licence is made by a registered exporter within 18 months of registration or if there is an interval of 18 months or more between any two such applications, it will be presumed that the exporter is not interested in exports and his continuation of registration and the Registering Authority will initiate action to de-register the exporter. Action to de-register an exporter may also be initiated by the Registering Authority where it is satisfied that:

- (a) the conditions of registration are violated or the exporter ceases to have the qualifications required for registration; or
- (b) the exporter has indulged in any form of unfair, corrupt or fraudulent practices, either under the Export Promotion Scheme or otherwise; or
- (c) the exporter has ceased to have interest in the continuation of his registration.

3.2. An exporter will ordinarily be given an opportunity to offer an explanation before being de-registered. The Registering Authority will, at the time of de-registering the exporter, decide with reference to the reasons for his de-registration whether the de-registration should be for a specific period or for an indefinite period, or whether the de-registration should be limited to a particular export item or be of a wider applicability. The decision of the Registration Authority shall, subject to the provisions of para. 3.3, be final and binding and the Registration Authority will not be bound to specify the reasons for de-registration.

3.3. Any exporter dissatisfied with any order passed by the E.P. Council/Board refusing registration or de-registering the exporter may appeal to the Ministry of International Trade. Any exporter dissatisfied with any order passed by the registering authorities mentioned in para. 2.1 refusing registration or de-registering the exporter may appeal to the Chief Controller of Imports and Exports in accordance with the procedure laid down in the Import Trade Control Handbook of Rules and Procedure, 1964.

4. *Applications for import entitlements*

4.1. For claiming an import entitlement under the scheme, a registered exporter should apply in the prescribed form, viz., form 'H' in Appendix 6. The application should be sent to the Joint Chief Controller of Imports and Exports, Bombay/Calcutta/Madras/Panjim (Goa)/New Delhi or the Deputy Chief Controller of Imports and Exports, Ernakulam, in whose jurisdiction the head office of the exporting firm is situated. In the case of E.P. Schemes administered by the Export Promotion Councils/Boards, the application for import licences should be sent to the concerned Council or Board who will forward the same with its recommendations to the Licensing Authorities. In respect of certain materials, the application should be made to the specialised licensing authorities such as Iron and Steel

APPENDIX 23—*contd.*

Controller for Iron and Steel items or the Development Officer (Tools) for machine tool items.

4.2. Applications for import entitlement against exports effected may be made on a monthly or quarterly basis in respect of exports made during the preceding month or quarter, as the case may be. However, if the exporter wants to apply for import licences under the E.P. Scheme on a six monthly or yearly basis in respect of the exports made during the preceding six months or year as the case may be, the exporter may prefer his applications within a period not exceeding 3 months from the expiry of the six monthly or yearly period to which the application relates. At the time of registration, exporters should exercise the choice to apply either on a monthly, quarterly, six-monthly or yearly basis. The Registering Authority may, on application, permit a change in the option initially exercised. If, however, an exporter wishes to apply for import licences immediately after effecting exports, such applications will also be entertained provided the necessary documentation is available.

4.3. Where a firm registered under the Scheme has any branches, the application for import licence shall be made only by the head office even though the exports have been made by the branches.

5. Documents to be sent with the application

5.1. In addition to the Treasury receipt showing payment of the requisite application fees, the following documents in the name of the person who is claiming the import entitlement relating to the exports effected should be produced along with the application for import licence:

- (i) Bill of Lading, invoices and Banker's certificate regarding receipt of foreign exchange; or
- (ii) Bill of Lading, invoices and an insurance policy issued by the Export Risks Insurance Corporation Limited, Bombay;
or
- (iii) Bill of Lading, invoices and an undertaking from the exporter that the banker's certificate regarding receipt of foreign exchange will be produced within six months, from the date of export. (The undertaking may be given by writing a letter addressed to the licensing authority. Any request for extension of the above-mentioned period of six months may be addressed to the Licensing Authority who will consider such requests on merits).

5.2. The invoices should be attested by the exporter's bankers or auditors giving detailed description of the goods exported, quantity, rate and value. The banker's certificate certifying payments received should give description of goods exported together with the invoice number and date and the f.o.b. value received in rupees and the date on which the payment is received and should be in the form appended to form 'H' given in Appendix 6.

APPENDIX 23—*contd.*

5.3. In lieu of an invoice, a certificate from the exporter's auditors or bankers giving details of the goods exported, quantity, rate and value will be accepted. Similarly, in lieu of the banker's certificate regarding receipt of foreign exchange, a certificate from the exporter's auditors will be accepted.

5.4. In the case of exports by air, airway bills should be produced in place of bills of lading wherever required. In the case of exports by post, postal receipt should be produced in place of bills of lading wherever required. In the case of exports by V.P.P., the following documents should be produced :—

- (i) Invoice giving the description of goods and weights of the individual items and their total weight actually exported;
- (ii) Relevant Postal Receipt; and
- (iii) Post master's certificate of receipt of payment or an undertaking from the exporter that a certificate from the Post Master showing receipt of payment from the foreign party in respect of the relevant postal receipts will be produced within six months from the date of export. (The undertaking may be given by writing a letter addressed to the licensing authority. Any request for extension of the above mentioned period of six months may be addressed to the Licensing Authority who will consider such request on merits). In place of the certificate from the Post Master showing receipt of payment, the intimation slip given by the Postal Department to the Indian recipient of the proceeds of the export by post can also be accepted as evidence of receipt of payment.

5.5. No I.V.C./Exemption No. need be produced in connection with applications for import licences under Export Promotion Schemes.

5.6. Where the exporter is required to prove the receipt of payment for obtaining an import licence but has not in fact received such payment, he may produce:

- (a) A copy of the shipment invoice showing the description of the goods exported, the invoice number and date and the f.o.b. value of the goods; and
- (b) A certificate issued by the Export Credit and Guarantee Corporation Ltd., Bombay, indicating—
 - (i) that the goods mentioned in the invoice are covered by Policy No.——— of the corporation for the value stated in the invoice;
 - (ii) the fact that the goods have been delivered to and accepted by the buyer; and
 - (iii) the date on which the buyer has so accepted the goods; and
 - (iv) the foreign currency which is to be earned (Dollars/ Sterling, etc.).

APPENDIX 23—*contd.*6. *Extent of import entitlement*

6.1. The value for which an import licence is given will be determined with reference to the f.o.b. value of exports and will be upto the monetary extent mentioned in the relevant export promotion scheme. This provision is, however, subject to the proviso that in addition to any action which may be taken to stop corrupt or fraudulent practices,

- (i) in cases where the Licensing Authority considers that the value of the goods exported is over-invoiced, it shall be open to the Licensing Authority either to refuse to issue any licence against such export or to reduce the value of the licence to such figure as he deems fit; and
- (ii) in cases where the Licensing Authority considers that there has been a misdeclaration of the description of the products exported, no licence will be issued against such exports and suitable penal action may also be taken against the person concerned.

6.2. When an exporter is registered as an exporter under the Scheme, exports effected by him from a date not earlier than three months prior to the date of application for registration will be considered for the grant of import licences under the Scheme.

7. *Use of import entitlement*

7.1. The import entitlement may be used for the import of the materials mentioned in the relevant scheme and subject to the conditions specified therein. In cases where import of machinery, machine parts, etc., is permitted, such import entitlement is generally allowed to be accumulated for a maximum period of two years and up to a maximum value of Rs. 10 lakhs. Requests for import of machinery, etc., in such cases in excess of the prescribed entitlement or for import of any raw materials, components or consumable stores not mentioned in the relevant scheme, may be made to the Registering Authority who will refer the matter for a decision to the Ministry of International Trade.

8. *Entitlement against export to certain countries*

8.1. Exports to Afghanistan, Nepal, Tibet, Sikkim and Bhutan will not be taken into account in determining the amount upto which import licences will be granted or for discharge of export obligations under the Scheme, unless otherwise provided in any particular Scheme.

8.2. With respect to exports to countries with which India has rupee payment arrangements, the import entitlements will be fully available only from any of the rupee payment countries unless specific arrangements have been made for allocation of materials through an approved agency, instead of direct imports from rupee payment countries.

APPENDIX 23—*contd.*

8.3. The Licensing Authority may, however, consider on merits cases of revalidating import licences issued for import from such rupee payment countries to permit import from other areas. Such revalidation of import licences will be solely at the discretion of the licence issuing authority who may reject requests for such revalidation without assigning reasons.

8.4 The name of the countries with which special arrangements exist for payment in rupees may be ascertained from the licensing authorities concerned.

9. Advance Licensing

9.1. Import licences under the Export Promotion Scheme are normally issued against past exports already effected. Advance licences may, however, be issued even if there be no entitlement for such licences against past exports where a firm order for export has been secured by the applicant.

9.2. Such an advance licence will be generally given for the quantity of materials actually required to produce the goods contracted for against firm orders produced before licensing authorities. In issuing such licences, the licensing authority shall insert a condition in the licence that the licensee shall export goods of specified value within six months from the date of import of the materials. This value of export obligation shall be an amount sufficient to earn an import entitlement equal to the value of the materials imported.

9.3. In order to ensure fulfilment of such export obligation, the exporter will be required to execute a bond in the form given in Annexure III with the Import Trade Controller concerned at the time of clearing the goods through Customs. The importer will be required to execute a bond duly guaranteed by a scheduled bank for the full value of the bond to the extent not exceeding 100 per cent. of the c.i.f. value of the good imported. The bond will be reduced or cancelled on production of evidence of export to the extent stipulated such as the bill of lading, invoice, bank certificate etc., as in para. 5. In the event of failure to comply with the aforesaid conditions, the amount of the bond will become payable to Government as a penalty and, in addition, the importer will render himself liable to further action under the Imports and Exports (Control) Act, 1947 and the Import Control Order, 1955.

9.4. An advance licence allowed in accordance with these provisions shall be treated as having been allowed on "loan" and set off against the entitlement which may be claimed under the Export Promotion Scheme subsequently after exports have actually been effected.

9.5. Advance import licences may also be given where in place of the documents mentioned in para. 5.1, the following documents are furnished along with application for import licence, viz., a copy of

APPENDIX 23—*contd.*

irrevocable letter of credit (certified by a Bank) and a letter addressed by the exporter to the Licensing Authority undertaking to the effect export before the expiry of letter of credit and produce the relevant bill of lading and invoice. Such advance licences will be endorsed to the effect that at the time of importation of goods, the parties will have to execute a bond, if the exports against the valid letter of credit have not already taken place and the party has not produced the evidence of export. No bank guarantee need, however, be furnished in such cases.

10. Non-Scheduled export products

10.1. Cases for grant of import licences against exports of products not already covered by any export promotion scheme will be considered only in very special cases where genuine export possibilities are proved to the satisfaction of the Registering/Licensing Authorities. Applicants desirous of obtaining import licences against the export of such products should first get their names registered with the Export Promotion authorities at Bombay, Madras, Calcutta, Goa, Ernakulam or Delhi. Along with the application, details of the products sought to be exported, the average f.o.b. value per unit quantity and the description, quantities and c.i.f. values of imported materials required for the manufacture of the unit quantity of the export product should be given. If the Registering Authority is satisfied about the merits of the case for registration, the matter will be referred by it to the Ministry of International Trade for a final decision. A registration certificate will be issued to the applicant if it is finally decided to grant registration and the percentage relation between the value of import licence and the product exported will be as mentioned in the registration certificate. After the registration certificate is issued, the applicant may apply for an import licence to the Import Trade Control Authorities. The other provisions of the Scheme will be applicable, so far as may be, to the granting of import licences in such cases also.

11. Changes in the constitution of a firm, etc.

11.1. When there is a change in the ownership, constitution or name of any concern which has been registered under the Export Promotion Scheme, it shall be obligatory on the part of the person in authority in the concern as originally registered to intimate the fact of such change to the Registering and the Licensing Authorities within fifteen days of the change.

11.2. In the case of a firm originally registered under any Export Promotion Scheme and which undergoes a change in its constitution, the entitlements and/or obligations against the exports of the firm originally registered will be apportioned by the Licensing Authority in its discretion without discharging, however, the obligation of the individual members of the firm originally registered.

APPENDIX 23—*contd.*12. *Miscellaneous*

12.1. Where materials licensable by other authorities (such as iron and steel items by the Iron and Steel Controller) are also required in addition to imported materials licensable by the Import Trade Control Authorities, the latter will assess the quantity and value of such materials and recommend the issue of import licences to the appropriate authority. The Licensing Authority will issue licences for the balance of the import entitlement.

12.2. The licences granted under the Export Promotion Scheme will normally be valid for twelve months. In special circumstances the period of validity may, on application, be extended for good reasons.

12.3. The import and sale of materials permitted under the Export Promotion Scheme are subject to the provisions of the various statutory regulations, e.g., Iron and Steel Control Order and Non-Ferrous Metals Control Order.

12.4. Though details regarding the import policy are announced by the Government every half year, the provisions of the Export Promotion Schemes mentioned in this Appendix will remain in force on a long term basis subject to such modifications as may be made by the Government from time to time.

APPENDIX 26

(Section II—S. Nos. 293, 295 and 297/IV)

MOTOR VEHICLE PARTS—LICENSING POLICY FOR

Licences for Motor Vehicle parts falling under S. Nos. 293, 295 and 297 of Part IV will be granted to established importers on the basis of a joint quota of past imports of all the articles falling under these serial numbers, excluding the List III items. Quotas already established will not, however, be disturbed. But in cases where quotas have been established only on the basis of past imports of a single item under consolidated quota for Motor Vehicle parts which is subsequently included in List III, the quota certificates so issued will have to be surrendered if the importers desire to get their quota re-established under List III on the basis of the past imports of that item.

2. The quota licences for April 1964—March 1965 will be issued on the basis of $7\frac{1}{2}$ per cent. quota. Supplementary licences for import of Motor Vehicle parts will be issued to Established Importers on 5 per cent. quota basis for imports from U.S.A. only. The procedure to be followed for import from U.S.A. will be announced separately.

3. Actual user applications from State Transport authorities and other Fleet owners owning a fleet of 25 vehicles or above (Motor Cycles, Scooters and Auto Rikshaws are not to be taken into consideration as a part of the fleet) will be considered and licences issued on the basis of either 100 per cent. or half of their best year's imports during any one year 1954-55, 1955-56 and 1956-57 or Rs. 250 per petrol driven vehicle or Rs. 350 per diesel driven vehicle, whichever is more. A.U. applications should be made to the licensing authorities at the ports. Applications under this provision will also be entertained from Co-operative Societies with individual operators as members with a fleet of 25 vehicles or above, which are duly registered with the State Registrar of Co-operative Societies. The basis of A.U. licensing to such Co-operative Societies will be the same as is applicable to Fleet owners having a fleet of 25 vehicles or above. The applications from Fleet owners and Co-operative Societies with individual operators as members should also be accompanied with a certificate regarding the number of vehicles owned by them from the State Motor Transport Authority. Such licences could be endorsed for the import of built-up diesel or petrol engines to replace similar engines on existing vehicles, subject to the condition that each actual user does not import more than six engines during a licensing period.

The Fleet owners owning a Fleet of 25 vehicles or above who will be entitled to receive A.U. licences for Motor vehicle parts under this Para will be those who own a Fleet of 25 vehicles or more. It is, however, added that passenger cars meant for private use will not qualify for such A.U. licences. Money lenders who have advanced loans for purchase of vehicles which are being run by individual operators will not be eligible to receive licences as Fleet owners under this Para. The Fleet owners will be required to give

APPENDIX 26—*contd.*

an undertaking that they will utilise the Motor vehicle parts imported against the licences for the maintenance and servicing of the vehicles for which the licence has been obtained.

4. Firms with approved manufacturing programme will also be allowed licences in consultation with the Directorate General of Technical Development. The applicants should indicate the utilisation of licences granted to them in the last two or three licensing periods. They should make applications under usual procedure to the Chief Controller of Imports, New Delhi through the Directorate General of Technical Development.

5. Licences for Motor Vehicle parts granted on the basis indicated in the preceding paragraphs will not be valid for the import of the items specified in List I and List III; and not more than 3 per cent. of the face value of the licences can be utilised for the import of items specified in List II. However, State Transport authorities and public utility bodies like B.E.S.T. undertaking can apply for List III items in case they have no licence/licences of adequate value for those items. Such requests will be considered on the recommendations of the Directorate General of Technical Development and any items so allowed would be endorsed on their Actual User licences.

Upto 5 per cent. of the face value of AU licences issued to Fleet owners and Cooperative Societies can be utilised for import of the permissible Thinwalled Bearings specified against item 13 of List III of this Appendix.

6. Upto 3 per cent. of the face value of the licences for motor vehicle parts granted on the basis indicated in the previous paragraphs can be utilised for the import of Ball Bearings used on motor vehicles not specified in Appendix 14 to this Red Book. However, (i) water pump bearings (used exclusively for all vehicular types of engines but not general purpose bearings), (ii) front axle inner bearings (imported in equal number in the form of cones, cups and retainers), (iii) front axle outer bearings (imported in equal number in the form of cups, cones and retainers) and (iv) Clutch and Release Bearings with or without collar can be imported against the licences for Motor Vehicle parts without restrictions.

Import of Self aligning bearings and Roller bearings, including barrel type bearings will be allowed to fleet owners, State Transport authorities and Co-operative Societies with individual operators as members against their A.U. licences in consultation with the Directorate General of Technical Development.

NOTE.—The provision for import of Ball bearings made in para. 6 above is meant only for Ball bearings used on motor vehicles.

7. For items mentioned in List III of this Appendix quotas will have to be re-established not only on the basis of imports of these items effected in the past as motor vehicle spares (S. Nos. 293, 295 and 297/IV) but on the basis of any one year's imports of these individual items within the basic period, effected against any S. No. and Part of the I.T.C. Schedule, excepting the Aircraft spares

APPENDIX 26—contd.

(S. Nos. 87 and 88 of Part V). It should be noted that imports of these items will, in future, be regulated only against the specific licences issued therefor, in terms of the provision made in List III of this Appendix. Imports of these items will not be permitted against the provision for import of spare parts, if any, made against any other S. No. and Part of the I.T.C. Schedule.

8. Bolts, nuts, screws, spacers and washers whether specifically adopted for use on motor vehicles or not will be allowed clearance to the extent of 1% of the face value of licences for Motor Vehicle parts falling under S. Nos. 293, 295 and 297/IV.

9. Upto 4% of the face value of quota licences as well as A.U. licences can be utilised for import of garage tools detailed in Appendix 25. Parts of such permissible types of garage tools, which are not classified elsewhere under any other Serial Number and Part of the I.T.C. Schedule and are not otherwise banned, can also be imported against the licences for Motor Vehicle parts within the face value of 4 per cent.

10. upto 3 per cent. of the face value of quota licences can also be utilised for import of valve pins.

11. Licences for S. Nos. 293, 295 and 297/IV cannot be utilised for the import of motor cycle dynamo sets. Import of cycle dynamo lamps i.e. dynamo lamps worked by the rotation of rotor in contact with tyre cannot be allowed importation as motor vehicle parts under licences for spare parts falling under S. Nos. 293, 295 and 297/IV.

12. Upto 2½ per cent. of the face value of licences for motor vehicle parts can be utilised for import of automotive tachographs.

13. Quota licences for Motor vehicle parts and licences issued for individual items in List III given in Appendix 26 will be valid for the import of Spare parts of Auto rickshaws which are interchangeable with Motor cycles and Scooters and are otherwise allowed to be imported against such licences.

SPECIAL ELECTRIC BULBS WHICH ARE FITTED TO PHOTOGRAPHIC INSTRUMENTS, SCIENTIFIC INSTRUMENTS, OTHER INSTRUMENTS ETC.—IMPORT OF.

Representations have been received that scientific photographic and other instruments are often rendered idle on account of the fact that they need special types of electric bulbs for use with them and normally speaking the importers of such equipment do not hold import licences for electric bulbs. The following decisions have been taken to remove these difficulties:—

- (a) In future, whenever a complete equipment is imported, in which an electric bulb having some peculiarity as to size, shape or filament is used, it will be permissible to import three spare bulbs of precisely the same type and make as is fitted to the equipment imported. If the number of bulbs fitted to the equipment exceeds one, the number of spare bulbs to be imported will be thrice the number of bulbs in the equipment. The value of the spare bulbs will be debited to the value of the licence against which the equipment is imported.
- (b) In order to enable the supply of replacements to equipment already imported in the country in the past, importers holding licences for equipment of a type for which such special non-G.L.S. type lamps are required will be permitted to apply for the endorsement of their existing licences to cover the imports of special types of lamps. This concession will only be granted to established importers who have imported equipment needing such bulbs during the last three years and it will be necessary for them to produce documents (bill of entry and invoices) to show that they have made such imports during each of the last three years. On production of such documents, their existing licences for the import of a particular equipment will be made valid for the import of spare bulbs also upto a value not exceeding $2\frac{1}{2}$ per cent. of the total c.i.f. value of the licence.
- (c) Where the equipment in question has been imported in the past under Open General Licence, established importers will be granted a special licence for the import of non-G.L.S. types of bulbs to fit such equipment equal in value to $2\frac{1}{2}$ per cent. of the value of such equipment actually imported by them during any of the three

APPENDIX 27—concl'd.

years ending 31st March, 1952, provided they produce documents to show that they have been making such imports during each of the last three years.

2. Applications for special licences or endorsements on existing licences in terms of the preceding paragraphs should be made to the Import Trade Controllers at the ports with the relevant bills of entry invoices, etc., and also a treasury challan where a fresh licence is needed, in the form and manner prescribed in the Hand Book.

MACHINERY (OTHER THAN MACHINE TOOLS) FOR WHICH LICENCES WILL NOT ORDINARILY BE VALID—LIST OF

List 'A'.—This list contains articles of machinery (other than Machine Tools) for which licences granted for machinery to Established Importers and Actual Users will not be valid.

List 'B'.—This list contains articles of machinery (other than Machine Tools) for which quota licences granted to Established Importers for machinery will not be valid; but applications from Actual Users or Importers having orders from Actual Users will be considered provided evidence is produced to the effect that indigenous manufacturers are unable to supply the machinery required.

In preparing List A, care has been taken to include only such items of machinery as can be readily obtained from indigenous sources and are produced in sizeable quantity of approved quality, while in List B, such of the items as can be manufactured against specific orders as per customers' specifications have been included.

COMPONENT PARTS AND SPARES

1. Where an actual user or an established importer having firm orders from an actual user desires to import spare parts of any of the machines listed in this Appendix, the application for an import licence will be considered on merits, provided full justification for the imports of the articles applied for are furnished in the application. If the value of the spare parts required to be imported by an actual user having his place of business at (a) Howrah and Calcutta, (b) Madras, and (c) Bombay exceeds in any half year, Rs. 5,000, the application should be accompanied by a certificate from a qualified Engineer, preferably on the staff of the applicant firm, to the effect that the spare parts required to be imported cannot be fabricated in any of the reputed workshops in (a) Howrah and Calcutta, (b) Madras, and (c) Bombay respectively. This certificate will, however, not be necessary in cases where the value of the applications for spares is less than Rs. 5,000.

2. This concession is also applicable to firms which are situated outside Bombay, Calcutta and Madras. In these cases, if the value of spare parts required is more than Rs. 5,000, the firm should produce a certificate from the Director of Industries of the State concerned to the effect that the spare parts required to be imported cannot be fabricated at the nearest centre of engineering industry.

3. Spare parts and component parts for items banned under the heading 'Cinematograph equipments' List 'A' and under the heading 'Cinema Machinery' in List 'B' of Appendix 35 could be imported

APPENDIX 35—*contd.*

APPENDIX 36

(Section II—S. No. 79/V)

X-RAY ELECTROMEDICAL EQUIPMENT, ACCESSORIES AND SPARE PARTS OF ELECTROMEDICAL APPARATUS, ETC.,—POLICY REGARDING IMPORT OF.

It has been represented to the Government of India that although electromedical apparatus is allowed to be imported, the established importers of these apparatuses cannot get spare parts, accessories and supplies of allied nature for servicing and maintaining the existing equipment properly as these accessories, spare parts and articles of allied nature were classified under different Serial Nos. of the Import Trade Control Schedule which are sometimes licensable strictly on a quota basis or are not licensed at all.

2. With a view to maintain the operation of the X-Ray and electromedical equipment it has been decided that the established importers of X-Ray and electromedical equipment can apply for their requirements of various articles although they may be falling under different Serial Nos. of the Import Trade Control Schedule under one application. A list of articles desired to be imported in broad categories like rotary converters, transformers, photographic tanks, transformer oil and film hangers, etc., and spare parts of the equipment should all be listed and a consolidated application should be made for all these. The requirements should be certified by the All India X-Ray and Electromedical Traders' Association, Bombay.

3. On receipt of the consolidated application giving a list of the articles desired to be imported and the value of each duly certified by the Association, the Import Trade Controller at the port will grant each firm a licence for its consolidated requirements and attach the list of the articles with the licence. Where certain articles are licensed on a quota basis the reasonableness of the demand of those articles can be judged from the firm's quota in respect of that article. The quota for these articles will be merged in the licence allowed. If the firms concerned have obtained any quota licence they should mention the name of the article and the amount of quota licence allowed so that adjustments for the same can be made, if necessary.

4. Although the value of individual articles as per requirements certified by the Association will be indicated in the list of articles for which the licence is granted, the licence holders can exceed the value of individual items by 25 per cent. of the value for that item provided that the total c.i.f. value of the licence is not exceeded.

5. It has also been decided that the import of one pair each of lead rubber X-Ray apron, lead rubber gloves (required for the radiologist) and lead glass "goggles" may be allowed clearance under licence for S. No. 79/V when they are imported along with the X-Ray equipment but not separated from it.

APPENDIX 37

IRRIGATION PROJECT EQUIPMENT—LICENSING OF

The following decisions of the Government of India in regard to the issue of licences for Machinery and Equipment required by various Irrigation Projects under the Irrigation Project Equipment Schemes are hereby announced for general information.

2. Subject to the provisions of paragraph 3 below, the Irrigation Project Equipment Scheme shall only apply to the following goods classifiable under Parts, I, II and V of the Import Trade Control Schedule:—

PART I—

Serial No. 17.—Cast Iron and Steel Valves and similar controls for Water Works, Irrigation and Hydro-Electric Schemes.

Serial No. 20.—Fabricated Gates for Dams and Barrages.

PART II—

Serial No. 9.—Iron and Steel articles and controls for Dams and Barrages also Cocks and Taps.

Serial No. 36.—All goods included in Serial Nos. 36(1), 36(2), 36(3), 36(4), and 36(5)—required for Irrigation and Hydro-Electrical Schemes.

PART V—

Serial No. 65.—All goods falling under Serial Nos. 65(1), 65(2), 65(3), 65(4) and 65(5) when required for Irrigation Projects.

Serial No. 92.—Water Meters and Measuring Instruments required for Water Works, Irrigation and Hydro-Electric Projects.

3. The Scheme will apply to applications of an aggregate value of Rs. 25,000 or over any project or subsidiary thereto.

4. These requirements will be centrally licensed by the Chief Controller of Imports in New Delhi and all the requirements should be put in the application rather than piecemeal according to the Serial Number of the Import Trade Control Schedule. The applications will be treated in the same way as the applications for Capital Goods. They should be made in the form prescribed for Capital Goods and Heavy Electrical Plant and should be submitted in duplicate to Chief Controller of Imports through Central Water and Power Commission, New Delhi.

APPENDIX 37—*contd.*

5. The initial period of validity for these licences will be one year from the date of issue and will be extended to a maximum period of three years on production of documentary evidence to show that a firm order has been placed and accepted by foreign suppliers. In cases where such evidence is produced at the time of submission of the application, licences will be issued with the maximum period of validity and no further extension will be necessary.

6. The applications should be accompanied with the usual treasury receipt and the Income-tax Verification Certificate Number or the specific exemption number as in the case of Capital Goods applications.

SPARE PARTS TO INDUSTRIAL UNDERTAKING ETC.—ISSUE OF LICENCES FOR COPY OF LATE MINISTRY OF COMMERCE AND CONSUMER INDUSTRIES PUBLIC NOTICE NO. 13-ITC(PN)/57, DATED THE 21ST FEBRUARY, 1957 AS AMENDED.

SUBJECT.—*Issue of licences for spare parts to Industrial Undertakings borne on the books of the Directorate General of Technical Development.*

The question of revising the licensing procedure to enable Industrial Undertakings borne on the books of the Directorate General of Technical Development to import readily essential spare parts of machinery required by them has been considered and it has been decided that:—

- (a) Applications from industries borne on the books of the Directorate General of Technical Development for import of 'Emergency' spare parts, i.e., spare parts required on an immediate basis to overcome an emergency breakdown/including a breakdown which is unavoidable for technical reasons in the course of next one month, provided a certificate to this effect is produced from a qualified engineer) of any production machinery, will be considered by the licensing authorities at the ports, and Actual User licences upto a maximum of Rs. 2,500 issued on an immediate basis. The justification for import of the spares in question should be adequately explained in the forwarding letter. Such applications should be boldly stamped on top in red ink as "Applications for emergency spares". The envelope should also be similarly stamped.
- (b) Actual User applications will also be considered from such industries by the C.C.I. for import of their normal requirements of replacement spares. These applications should be made only once in a licensing period to the Headquarters Office and should be stamped as "Applications for replacement spares" in the manner indicated under (a) above. The applicants should clearly indicate the value of licence, if any, for emergency spares obtained from the port licensing authority.

2. Applications from industries not borne on the books of the Directorate General of Technical Development will continue to be dealt with, as hitherto, in accordance with the normal procedure.

NOTES:—

- (1) The provision contained in para. 1(a) of the above Public Notice has also been extended to Industrial Undertakings not borne on the list of the Directorate General of Technical Development. Applications for emergency spare parts for Machine Tools falling under Part VI of the I.T.C. Schedule, will also be entertained by the port licensing authorities under these provisions.
- (2) No last date for receipt of applications for emergency spares has been prescribed and such applications will, therefore, be considered on merits throughout the licensing period.

Spare parts of Prime-movers—Import of

COPY OF LATE MINISTRY OF COMMERCE AND INDUSTRY PUBLIC NOTICE
No. 53-ITC (PN)/53, DATED 25TH MARCH, 1953

SUBJECT:—*Import of spare parts of Prime-movers such as Diesel or Kerosene or Petrol Engines, etc. required for power-driven agricultural machinery e.g. Sprayers and Dusters, Power-driven pumps and Generating sets.*

It has been brought to the notice of the Government that importers are experiencing difficulty in regard to the import of spare parts of Prime-movers required for power-driven agricultural machinery, power-driven pumps and generating sets.

In this connection, it is pointed out that there already exist provisions for the import of spare parts of different prime-movers under different S. Nos. of the Import Trade Control Schedule and their import is governed by the Policy in force for those items.

With a view, however, to removing the genuine difficulty that may be experienced by importers of the complete machines with prime-movers like power driven spraying machines, power driven pumps etc., it has been decided that licences will be issued to them for the import of spare parts of prime-movers required for complete power-driven agricultural machinery. Power-driven pumps and generating sets on the basis of 5% of half of best years' imports of the complete machinery in question. The licences issued will however, not be valid to cover import of the prohibited types of spares and also such spares as have been separately shown (e.g., Piston Rings, Ball Bearings etc.) under the Import Trade Control Schedule.

Applications for the purpose should be submitted to the licensing authorities at the ports so as to reach them on or before 30th April, 1953.

NOTE.—It has been decided that the provisions of this Appendix will no longer be operative.
